

CLINICALLY PROVEN

Zestra[®]
Essential
Arousal Oil™

All women deserve incredible sensations and pleasurable satisfaction.

That's what we believe and that's why we created Zestra® Essential arousal oil.

Many women say that intimate sensations and pleasurable satisfaction do not happen as naturally as they would like. Zestra was developed to provide a much needed option for all women to feel more satisfied.

Zestra a safe, patented blend of botanical oils and extracts, clinically proven to increase a woman's pleasure. Zestra works effortlessly and within minutes by providing a tingling, warming feeling – for deep, intimate sensations, pleasurable satisfaction and fulfillment.

After applying Zestra to the clitoris and labia, the effects – the Zestra Rush™ – begin for most women within 3 to 5 minutes and last for up to 45 minutes.

Important Information for You to Know about Zestra.

- Recommended by doctors and women's healthcare professionals.
- Clinically-documented to be safe and effective.
- Paraben-free.
- Comes in convenient, single-use personal packettes or in a multi-dose pump (dispenser).
- Is made of botanical ingredients and is harmless if ingested.

Directions:

Each package keeps Zestra oils safe from heat and light.

1. For Zestra bottle: pump the bottle 3 times in the palm of your hand. For Zestra personal Packette : open a Zestra packette across the top, starting at one of the grooves on either side.
2. You and/or your partner gently massage the content onto the clitoris, labia and outer areas of the vagina.
3. Within 3 to 5 minutes, you will begin to feel initial sensations – the Zestra Rush™. These effects will peak at about 10 minutes and last up to 45 minutes.
4. If you use a personal lubricant for comfort during sex, apply Zestra first. Wait five minutes for Zestra to begin to work, then apply the lubricant. You must apply Zestra first to experience the Zestra Rush™.

* Most women find that one packette is the right amount. However, some women find a ½ packette is enough while others prefer more. We recommend trying one personal packette first, then adjusting, if necessary, the next time you use Zestra.

Zestra can be used as often as you like – including during each sexual experience.

Ingredients:

Borago Officinalis Seed Oil, Oenothera Biennis (Evening Primrose) Oil, Angelica Archangelica Root Extract, Coleus Forskohlii Root Extract, Theobroma Cacao (Cocoa) Seed Powder, Ascorbyl Palmitate, Tocopherol, Aroma.

Precautions:

- Do not use if you have a known hypersensitivity (allergy) to any of the ingredients in Zestra.
- Do NOT use Zestra with LATEX condoms as latex condoms are not compatible with oil-based products. Zestra is safe to use with polyurethane condoms only, as they are specially designed for use with oil-based products.
- Do not use if you are pregnant, nursing, or trying to conceive.
- Zestra does NOT provide protection from Sexually Transmitted Diseases (STDs).
- Zestra is NOT a contraceptive and does NOT contain spermicide.
- Do not use if you have any type of vaginal infection or irritation such as a yeast infection. If you believe you have a yeast infection, consult your healthcare professional for treatment and wait until the infection is resolved before using Zestra.
- Women with known vulvar and vaginal hypersensitivity (vulvar vestibulitis, lichen sclerosis), vaginal pain or recurrent infections should use Zestra only after a discussion with a healthcare professional.
- Zestra should be stored at room temperature. Do not store in direct sunlight and do not refrigerate or freeze.
- Zestra personal packettes are tamper-evident. Do not use if ripped or torn.
- Avoid contact with eyes. If eye contact occurs, rinse with water to remove.
- Keep out of reach of children.

FAQs

How was Zestra developed?

Zestra was developed by a pharmacologist who was focused on finding ways to enhance women's pleasure. Zestra is the result of a thoughtful, detailed exploration of scientific research and concern for women. Recommended by doctors and women's healthcare professionals, Zestra has been established – in two clinical studies – to improve a woman's pleasure.

What can I expect when I apply Zestra?

Within 3 to 5 minutes, most women experience the pleasant, tingly and/or warming sensation we call the Zestra Rush™. For a few, the sensation may result in a temporary feeling of discomfort. In that case, simply rinse off with soap and water.

Does Zestra have any side effects?

Zestra has been evaluated in clinical studies and has been used by women for more than 5 years. Using topically-applied Zestra has been demonstrated to be safe in clinical studies. No serious adverse side effects were reported in the Zestra clinical studies. Zestra should not be used if you have any type of active vaginal infection, genital lesions or irritation.

Do any drugs interact with Zestra?

There are no known drug interactions between topically-applied Zestra and any prescription or non-prescription drugs. As with any medically related questions, you should contact your healthcare professional if you have questions about your particular medical circumstances.

How will Zestra affect my partner?

Many women report that when using Zestra during intercourse, their partner also experiences greater satisfaction.

Are there any women who shouldn't use Zestra?

Zestra should not be used by anyone with a known hypersensitivity or allergy to any of the ingredients in Zestra. As with many products, Zestra should not be used by pregnant or lactating women, or women who are trying to conceive, as it has not been studied in those populations. Women with yeast infections and other irritating conditions of the genitals should not use Zestra until the condition is resolved.

Can I use condoms with Zestra?

Zestra should NOT be used with latex condoms, but is safe to use with polyurethane condoms.

Is Zestra safe to ingest during sexual intercourse ?

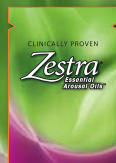

The ingredients in Zestra are derived from natural botanical ingredients, and is harmless if ingested.
